

B	I	N	G	O
Go for a nature walk	Identify a bird in your backyard	Build a batbox	Pick up at least five pieces of garbage outside	Create a scrapbook or journal page of a native Alberta species
Make a window bird collision proof	Use a reusable mug/container	Tell someone about the “leave it there there” rule for baby hares	Learn a fact about one of Alberta’s native mammal species	Draw a picture of a bird you’ve seen in or close to the city
Turn off your lights when you’re not using them	Go for a walk with a pet on a leash	 Free Space	Learn what an indicator species is and research one that is native to Alberta	Watch a wild animal from afar using binoculars
Walk somewhere you would normally get a ride in a car to	Take a reusable bag to the grocery store	Learn about “leave no trace”	Identify one of Alberta’s native wildflowers that are important to pollinators (e.g., Prairie Crocus, Blue Flax, Golden Bean)	Make a list of five endangered species in Canada and write down the biggest threat they are facing
Identify a feather	Plant a tree or some native wildflowers	Create a photo journal of 10 things you have found relating to nature	Write down three things you can do to help wildlife	Find and identify some animal tracks
